Promotional SMS

Create interesting SMS Campaigns to your existing using our web portal. Branded SMS, Location-based targetting, Easy email builder & other promotion tools help you attract customers better.

Transactional SMS

Send messages & updates like order/payment updates, system alerts, transaction alerts, emergency situation status report and other critical events.

Alert & Notification

Instantly inform a large group of people. Send an alert or notification to your contacts quickly. Automated, system generated or location based - improve your business instant communication capabilities easily.

Push-Pull SMS

Get direct feedback from end-user using messaging. Push-Pull allows you to engage in a 2-way communication with your client. Use may it for campaigns, polls etc.

A2P (Application to person)

A2P Messaging includes all automatically generated messages from any application or system. e.g: transactional info, two factor authentication, automatic booking confirmations etc.

Over-the-top (OTT) & Push-Pull

Connect to your audience online using their favourite chatt apps. Send them 'rich' messages & content over Viber, Whatsapp & RCS.
