### Maths Paper 1

Question **4**

Not yet  
answered

Marked out of  
2.00

Flag question

Find  $\int \frac{x+3}{x^2+2x+5} dx$ .

Select one:

☒ a.

$$I = \int dx + 7 \int \frac{dx}{x+2} - 12 \int \frac{dx}{x+3} = x + 7 \ln|x+2| - 12 \ln|x+3| + C.$$

☐ b.

$$I = \frac{1}{2} \ln(x^2 + 2x + 5) + 2 \cdot \frac{1}{2} \tan^{-1} \frac{x+1}{2} + C = \frac{1}{2} \ln(x^2 + 2x + 5) + \tan^{-1} \frac{x+1}{2} + C.$$

# OVERALL FEATURES

## Easy to use, powerful, online exam designer

You can create any type of quiz, test or exam, simple to sophisticated-with our powerful and easy-to-use exam designer.

## Multi language

Responder can choose the language. We already cover a set of languages. Let us know if you need another language.

## Automatic reporting

When the exam is over, the detailed report is ready.

## Both assess & collect data

You can both ask questions that affect exam score and collect data within the same exam.

## Random ordering of pages, questions and choices

We can automatically randomise the order of the pages, questions and choices for each respondent that accesses the test.

## Random selection of pages & questions

You can prepare exams that ask different questions to each respondent that access the test

## Group pages & questions

You can group a set of pages or questions so that you see as a different part in your report.

## Use rich text and images

Benefit of rich text editors and images to clarify and beautify the pages and questions.

## Several Question Types

Drop down to multiple choice text to rating scale. We offer you the question types that you need.

## Open ended questions & evaluation

You can ask open-ended questions. When the exam is over evaluate the response and the report is ready.

### Easy and advanced scoring with multiple dimensions

Each questions has its own point. However questions may affect multiple dimensions with different multipliers.

### Advanced time management

Exams can be both time-free or time-limited. Time limitations can be both on exam level, page level or even mixed. You can set different time limits for different pages.

### Date and time restrictions

You can set the date and time the exam will be available or be expired. You can create several collectors and set different date and time restrictions for each.

### Flexible response collection strategies

You can create a single link or many unique links for exam access, or assign exams to users of your organisation.

### Organisation & user Management

You can create many organisations within the same company, create & assign users with login access. You can group users within the same organisation.

### Collaboration, roles & permissions management

You assign different roles or permissions for the users of your company and organisations. Users can collaborate while designing a test, collecting responses and analysing results.

### Import and Export facilities

You can import & export users exams, responses, reports with ease.

### Navigation during exam

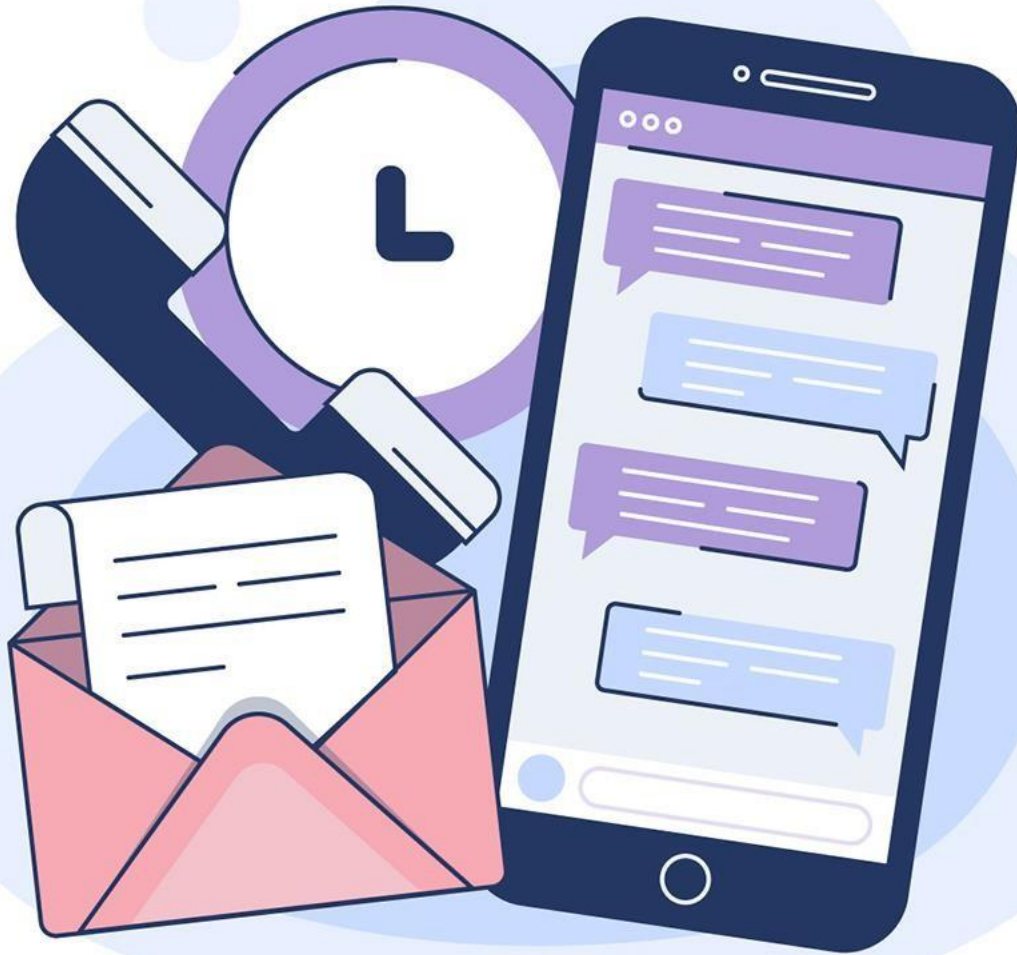

You can allow users to go back and forth among the pages during exam.

### Email invitations

You can invite people by sending e-mail invitations. You can schedule the e-mail delivery.

### Lock down browser

You can allow users to attempt examinations on Mac & PC browsers like IE, Chrome, Firefox & Safari enabled with lock down browser.
