- Ability to implement rules to comply with election by-laws
- Email & SMS based OTP Verification
- & more

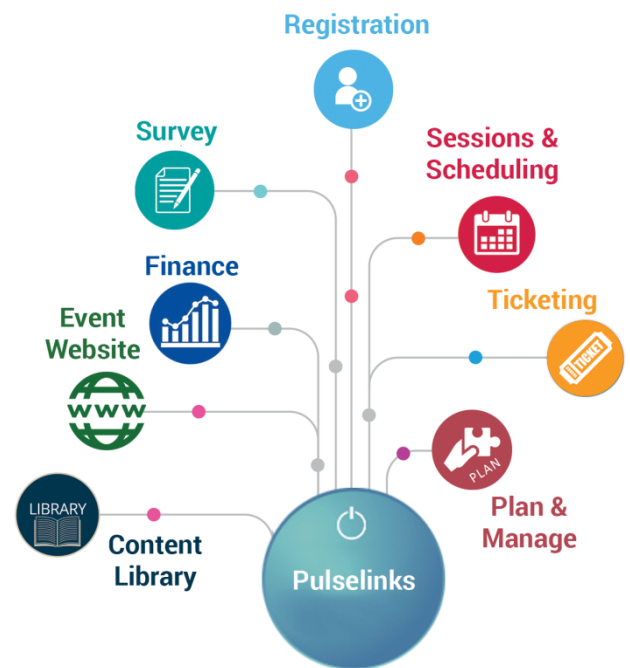

The COVID-19 pandemic has left associations & clubs in a difficult situation when it comes to holding elections. The election of committees and management boards is an essential activity but the health & safety risk of holding an in-person election is daunting.

In addition, an online voting system allows voters who are unable to physically attend an election to cast their vote quickly & easily from almost anywhere in the world with an internet connection!

This is a great plus for voters and results in a much more inclusive election with significantly higher number of votes cast.

The solution also puts the Election Commission fully in control of the whole process and eliminates a lot of manual work in conducting an election.

what . where . when

Securely In Control

Benefits

- ✓ Allows members who wish to vote online, do so securely with identity confirmation via a one-time-password (OTP) using SMS to their registered phone number and email address
- ✓ If a hybrid arrangement is made for in-person voting, this can be arranged via devices made available to voters on the premises
- ✓ Eliminating paper ballots will significantly reduce the exposure and risk of transmission
- ✓ Anonymous recording of ballots with automatic control of members' voting submission to guarantee no false/duplicate ballots
- ✓ Results will be available immediately without the need to count votes from paper ballots reducing the risk for the election commission members responsible for this process
- ✓ Safe storage and management of data in a data centre in Europe

Online Elections

Pulselinks lets you manage all the complexities of your election process and ensures that your election is conducted according to your organization's processes & rules.

While this is a SaaS solution, we offer full service & support packages where our team will work hand-in-hand with the Election Commission of your organization to take care of all the technical aspects of the process.

We can manage the election portal, all content publishing, linking the members directory, configuring the nomination, withdrawal and ballot pages according to your specific needs & provide hot-line support on request.
