About VATPROMPT

VATPrompt is a complete software application for automated VAT accounts management and reporting obligations of VAT paying businesses. The VATPrompt application takes care of all NBR forms and processes under the VAT law and rules. It caters to all industry categories for manufacturing, exports, imports, trading and services.

VATPrompt Facilitates :

- Automatic compliance with VAT rules
- Automatic submission of monthly returns within a day following month-end
- Management reports as required
- Up-to-date info on purchase and sales at any time
- Automatic input-tax-credit alerts
- MUSHOK Forms auto generated from VAT accounting entries
- Ready interconnection with other software in use
- Affordable pricing based on business size

### Ensure Automatic Tax Compliance for Your Business

VATPrompt
- Compliance with VAT rules
- Adaptabillty with VAT SROs
- Interconnection with IVAS

VAT Prompt Connects All Systems

IVAS : Integrated VAT Administration System

API : Application Programmatic Interface for data exchange

POS : Point of Sales

ERP : Enterprise Resource Planning

IVAS — API
POS — VAT Prompt — API — ERP
Payment Gateway

How VATPrompt saves cost of doing business :

- No changes required in existing software saving big expenses for upgrading
- Ensures VAT compliance and minimizes incidental expenses reducing cost of doing business
- Auto compliance with future changes in rules/SRO allowing better business planning and saving non-compliance penalties and hassles
- Frees up accounting manpower to attend to other business matters optimizing personnel resources
