

ORACLE®

**ERP Partner of the Year - 2018
New Technology Systems Ltd.
Bangladesh**

This award recognizes the Oracle partner who has demonstrated an outstanding level of innovation in delivering proven Oracle based solutions that solve customers most critical business challenges. This achievement is a testament to their dedication and excellence to providing customers with solutions and services that drive real business value and results.

Who We Are

NTS exists only to empower you to be successful in your business segment. We believe that every IT Enabled Services (ITES) project is unique in its own way and cannot be generalized. We will go through it with you and provide you with best and sustainable IT solution that will bring a "YES" Factor in your corporate life.

Since 2002, we have been consistently committed to our customers and satisfying their dynamic information needs of the most demanding enterprises with its IT expertise, Software and Hardware solutions.

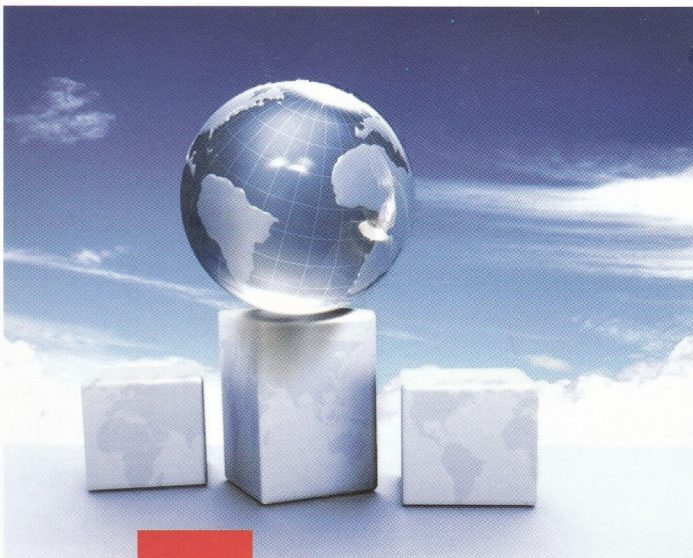

NTS delivers its solutions and services directly and also through its network of partners. We are headquartered in Chattogram, Bangladesh.

Our Mission

Our mission is to see beyond the typical solutions, seek out competitive advantages for our clients through the innovative use of technology and to empower our client to achieve sustainable growth and long term success.

Over the past few decades, technology has revolutionized the world of business. In the world we live in today, information is the most valued currency and the access to information is the key to success. More and more companies, regardless of their size, use the advantage of technology to maximize their business output. Our AIM, is to work with you as an extended part of the IT wing of your organization to help you reach your maximum output and grow exponentially.

Our Vision

Our vision is to be THE committed "System Integrator" in our markets while delivering premium and exclusive services to our customers.

We exist only to serve our customers and help them achieve their business goals. By building an affluent & robust customer base locally, we would like to spread our wings beyond the horizon and etch our mark globally.

ENTERPRISE RESOURCE PLANNING

In today's high-end 24-7 Enterprise-Solution market, we here at NTS are the fore-runners as the Oracle ERP Implementer in Bangladesh. To help customers manage that complexity and ensure business continuity of their business processes, we help our customers to utilize the world's best practices by using Oracle E-Business Suite 12.2. With the help of this, Enterprises will be able to leverage an integrated suite of business applications to make better decisions, reduce costs and increase performance.

ON DEMAND IT SOLUTIONS

We have the expertise to serve you on the following segments as well – Building IT Infrastructure, Setup Data Centre, Remote Connectivity Solutions, and Enterprise Content Management. For All your hardware needs, NTS Hardware Solutions professionals can analyse your requirements and environment and suggest to you the best and most cost effective hardware for your organization.

CONSULTANCY (FUNCTIONAL & TECHNICAL)

We have one of the most experienced advisory boards at our disposal for all our customers. Our consultants boast heavy expertise within the current markets nationwide and worldwide as well being extremely experienced. Amongst our incumbents, we have a Chartered account (25+ years experience), Former Banker (Ex. DMD), Former Systems Analyst (Semi-government) and functional resource having more than 20+ years of working experience with International organizations such as KPMG & PWC. On the technical side, we can provide consultants foreign and local with expertise in Oracle ERP and Cloud Implementation, DBA, Systems Analyst, and Network and Hardware Engineers.

CLOUD

Oracle Cloud redefines how businesses modernize, innovate and compete in a digital world. Oracle delivers innovative and integrated cloud services that allow users and developers to build, deploy, and manage workloads seamlessly – in the cloud. Oracle Cloud continues the heritage of providing mission and business critical application and data solution for organizations of all sizes. Future-proof your business with the future proof cloud.

PAPER-LESS OFFICE IMPLEMENTATION

The Paperless Office is defined as an electronic document management environment that provides an alternative to the workflow and storage issues associated with paper files. In layman's term this is done by converting documents and other paper into digital form as much as possible. "Going Paperless" can save money, boost productivity, save space, make documentation and information sharing easier keep personal information more secure, all while creating an eco-friendly office thus keeping up with the latest technological updates.

AWARDS

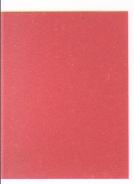

AWARDS

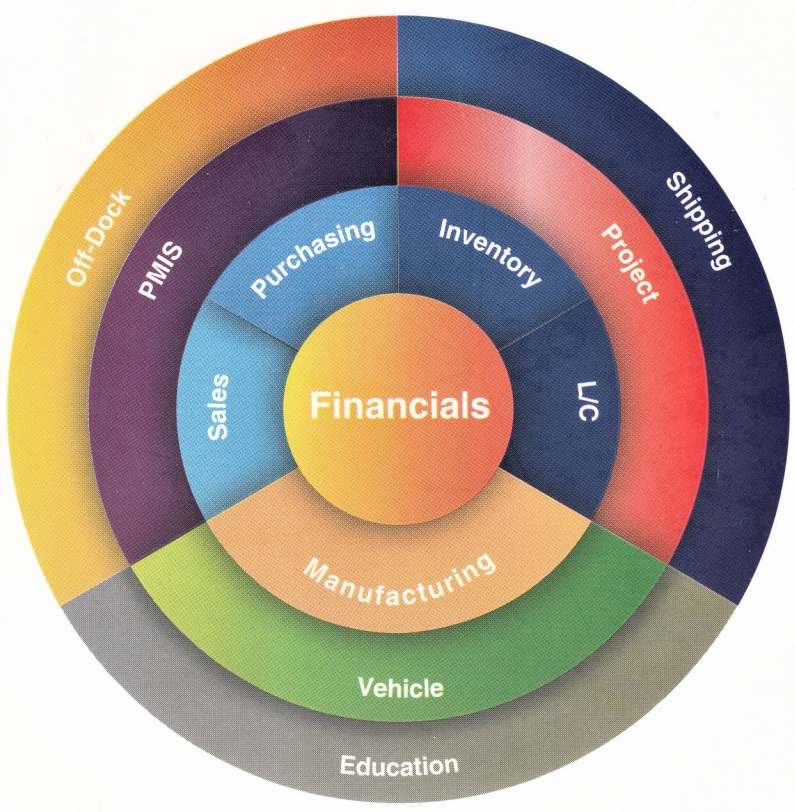

As recently as 2018, we here at NTS, were honoured with the award of Enterprise Partner of Resources (ERP) 2018 by Oracle. This is a further validation of our continuous hard work over the years and commitment to the excellence we maintain when providing to all our clients. Given below are some of the pictures of our beloved Organization and some of the various events we have been a part of.

For those locally growing and up-coming enterprises, we have exclusively designed and developed an ERP, *intERPpreter*. This is a comprehensive yet flexible suite of applications designed to cater to the daily activities of an organization. With our in-depth knowledge on local business practices and real time experience on Global ERP implementation, we have developed *intERPpreter* to be a dynamic all in

one application suite. *intERPpreter* collects, manages, and distributes information across functional boundaries and helps break down information "silos" those barriers that stand in the way of full cooperation between various departments. Moreover, this system also allows for discrete pieces to be utilized separately without having to implement an entire ERP system. We are further developing our **OWN Version of Cloud** for this version of *intERPpreter*.
